the number of medals each country won over time

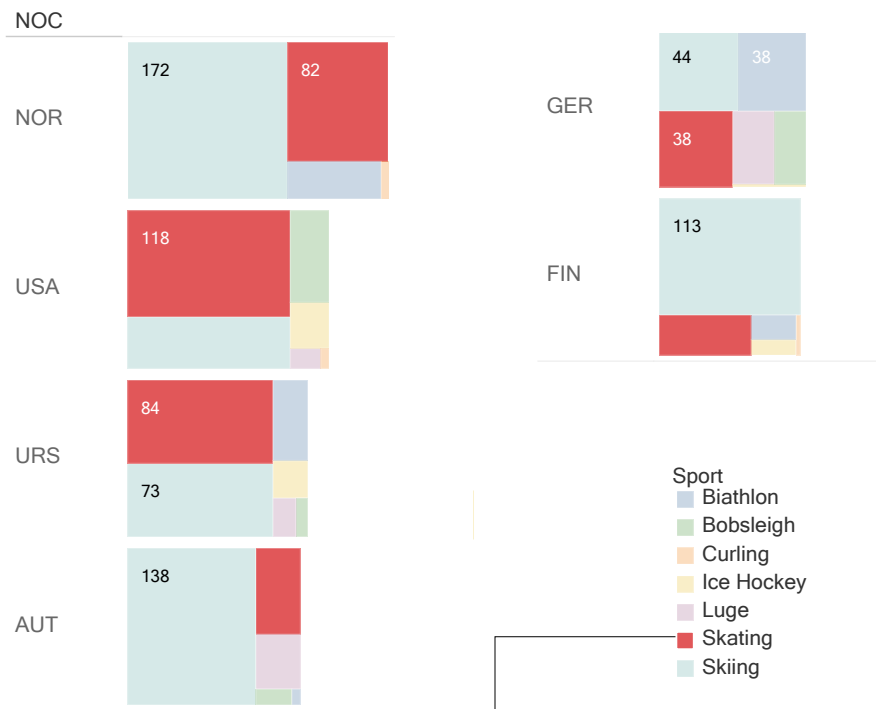

Norway always performed well since 1924.

Skiing and skating always took a large percentage of all the medals Norway won.

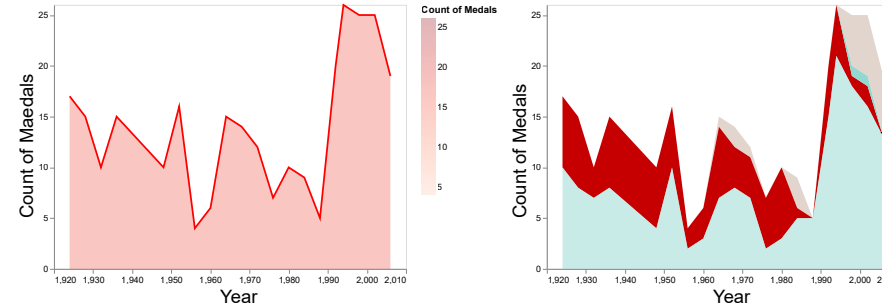

## What sports contribtues a lot?

the number of medals of certain sports  
top 6 country won since 1924

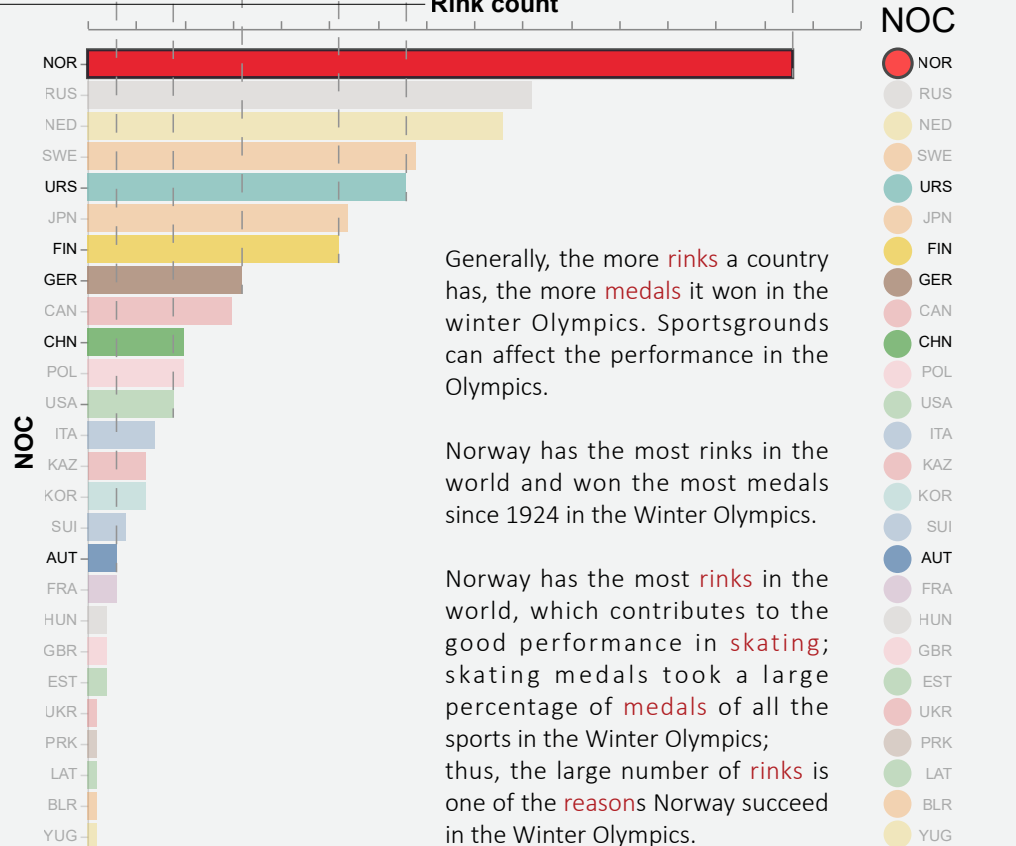

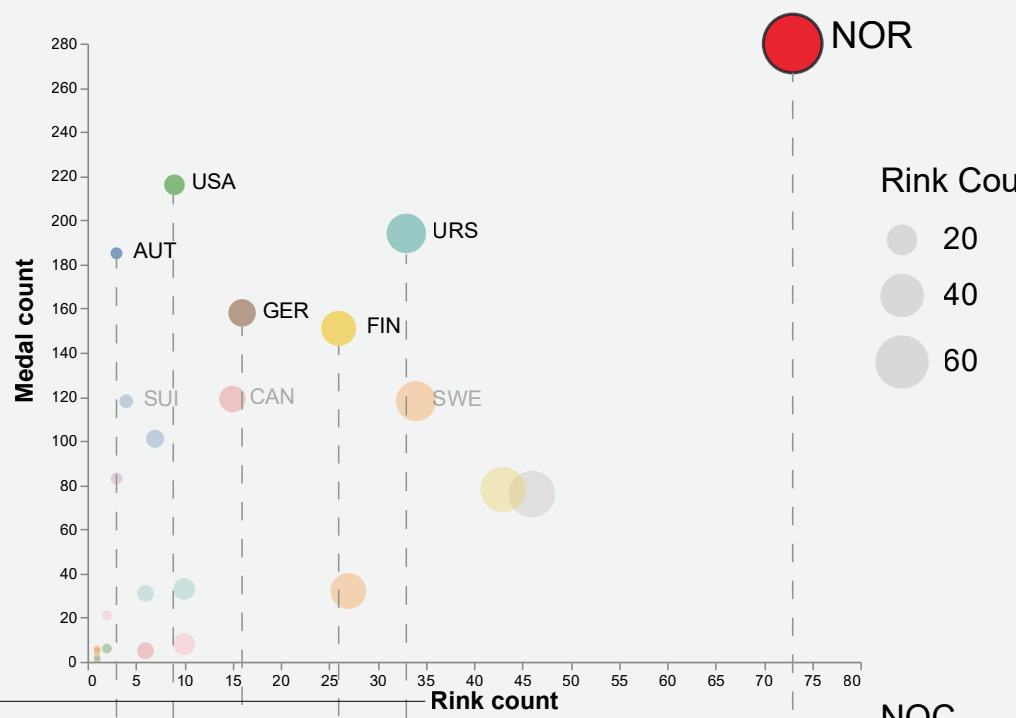

In the top 6 countries that won the msot medals since 1924, skating and skiing took a large percentage of all the medals Norway won.

the number of medals Norway won over time

## Why did Norway win a lot in skating?

the number of medals vs the number or rinks  
each country

Generally, the more rinks a country has, the more medals it won in the winter Olympics. Sportsgrounds can affect the performance in the Olympics.

Norway has the most rinks in the world and won the most medals since 1924 in the Winter Olympics.

Norway has the most rinks in the world, which contributes to the good performance in skating; skating medals took a large percentage of medals of all the sports in the Winter Olympics; thus, the large number of rinks is one of the reasons Norway succeed in the Winter Olympics.
